

BOXWORTH PARISH-CHAIR-APPROVED ROAD SAFETY CONSULTATION (V2)
FOR THE ELSWORTH RD / SCHOOL LANE /VILLAGE HALL JUNCTION
(In association with Community Roadwatch(UK) CIC)

Situation. This junction experiences vehicles exiting and pedestrians (especially school children at peak traffic volume times), crossing from/to busstops or the village hall BUT, because of the 'blind' bend, they are not visible to outbound vehicles until far too late for drivers to stop, even in an emergency. Also, when buses do stop, or vehicles park on the bend, any driver overtaking them is at grave risk of a head-on collision with fast-moving vehicles @30+ mph when neither driver can see the other until too late.

Proposal. The full CRW Report can be found at www.Roadwatch.org.uk/Cambs/Boxworth/LHI23-24, but the main points are listed for your approval/comment below:

- Improve Signage & Road Markings to make drivers aware in a timely fashion of the existence of the junction & Speed Limit and the dangers associated with vehicles exiting & people/children crossing there.
- ~~Install a raised table like the 2 in Elsworth (and many elsewhere) to simply slow vehicles (removed after consultation (no acceptability by Elsworth residents).~~

Please Sign and Date this Letter and return to John Witherow (Chair) at Pages Farm in the High St for scanning or scan yourself and send to coord@roadwatch.org.uk or just email your comments to coord. The anonymised results & comments will be posted on the LHI23-24 web portal.
